You MUST APPLY for a waiver through the school district. 

**7. Are there other exemptions to the MASK mandate?**

Yes. You are exempt if: 

- You are under the age of two.
- A caregiver cannot safely place the mask on you.
- The ability to see the mouth is essential for communication such as for the deaf or hard of hearing. Wear a mask with a clear window or a face shield though it is not ideal.
- You are in a school-sponsored activity or physical education class where it is not reasonable to wear a face mask. You must complete a symptom check, confirm you're COVID free and have not been in close contact with a COVID-positive case in the last 14 days.
